Education

B.E. in Computer Science and Design

2022 – 2026

Canara Engineering College, Bantwal

CGPA: 8.54

PUC (PCMCs)

2020 – 2022

Dr. A.V. Baliga PU College

Percentage: 85%

Technical Skills

Design: Figma, Wireframing, Prototyping, User Research, Storyboarding, User-Centered Design, Responsive Design

Frontend: HTML5, CSS3, JavaScript, React.js

Backend: Node.js, Express.js, Flask, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub, VS Code

Experience

Frontend Development Intern – Cognifyz Technologies

Aug 2025 – Sep 2025

- Designed and developed responsive user interfaces using HTML, CSS, JavaScript, and React.js.
- Improved usability and visual consistency through component-based frontend development.
- Collaborated with team members to deliver user-friendly and interactive web experiences.

Full Stack Web Development Intern – Princeton Smart Engineers

Jan 2026 – May 2026

- Developed responsive web applications focusing on functionality, accessibility, and user experience.
- Collaborated with team members during development, testing, debugging, and deployment phases.
- Contributed to frontend design improvements and backend integration for seamless workflows.

Projects

EDA Workspace Redesign (*Figma, UI/UX Design*)

- Redesigned an Electronic Design Automation (EDA) workspace to improve navigation and workflow efficiency.
- Analyzed engineering software interfaces to identify usability challenges and UX improvements.
- Created wireframes, user flows, and interactive prototypes in Figma using user-centered design principles.

Portfolio Website (*React.js, HTML5, CSS3, JavaScript, Node.js, Express.js*)

- Developed a responsive portfolio website showcasing projects, internships, certifications, and achievements.
- Implemented modern UI features including animations, dark/light mode, and contact form integration.
- Optimized layouts and navigation to improve accessibility and user experience across devices.

Smart Work Automation System (*Python, Machine Learning, MongoDB*)

- Developed an intelligent task allocation system with employee and administrator dashboards.
- Implemented resume-based skill extraction and workflow automation features.
- Built a full-stack solution using Python, MongoDB, HTML, CSS, and JavaScript.

Automatic Exam Paper Correction (*Python, NLP, Machine Learning*)

- Developed an automated descriptive answer evaluation system using NLP and Machine Learning techniques.
- Collaborated in a four-member team to assess answers and generate scores automatically.
- Improved scoring consistency and reduced manual evaluation effort.

Relevant Coursework

Human Computer Interaction (HCI), Software Engineering, Web Technologies, Database Management Systems, Operating Systems, Design Thinking

Certifications

- Google AI Essentials – Coursera
- Postman API Fundamentals – NITK Surathkal

Achievements

- Participated in L'Oréal Sustainability Challenge 2025.
- Participated in TVS Credit E.P.I.C 7.0 – IT Challenge.
