Education

B.E in Computer Science and Design Canara Engineering College, Bantwal, India CGPA: 8.54	2022 – 2026
PUC (12th) – PCMCs Dr. A.V. Baliga P U College of Arts and Science, Kumta, India Percentage: 85%	2020 – 2022
10th Standard Gibb English Medium High School, Kumta, India Percentage: 80.8%	2019 – 2020

Technical Skills

Programming Languages: Java, Python, JavaScript
Frontend: HTML, CSS, React.js
Backend: Flask, REST APIs
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code

Experience

Frontend Development Intern – Cognifyz Technologies • Developed responsive and user-friendly web interfaces using HTML, CSS, JavaScript, and React.js. • Implemented interactive frontend features and collaborated on web development projects.	Aug 2025 – Sep 2025
Full Stack Web Development Intern – Princeton Smart Engineers • Built responsive web applications by integrating frontend and backend components, improving functionality and user experience. • Participated in the complete software development lifecycle, including development, testing, debugging, and deployment.	Jan 2026 – May 2026

Projects

Smart Work Automation System (<i>Python, Machine Learning</i>) • Worked in a four-member team to develop an intelligent task allocation system using Machine Learning for workforce management. • Developed a full-stack web application using Python, MongoDB, HTML, CSS, and JavaScript with employee and admin dashboards. • Implemented resume-based skill extraction and task automation features to streamline task assignment processes.
Automatic Exam Paper Correction (<i>Python, NLP, Machine Learning</i>) • Developed an automated answer evaluation system using NLP and Machine Learning techniques. • Collaborated in a four-member team to assess descriptive answers and generate scores automatically. • Designed a scoring mechanism to improve consistency and reduce manual evaluation effort.
Portfolio (<i>React.js, JavaScript, HTML5, CSS3, Node.js, Express.js, Nodemailer, Framer Motion</i>) • Developed a responsive full-stack portfolio website using React.js, showcasing projects, skills, internships, certifications, and achievements. • Implemented modern UI features including responsive design, dark/light mode, smooth animations, and interactive project showcase components to enhance user experience. • Built a Node.js and Express.js backend with Nodemailer integration to handle contact form submissions and automate email notifications securely.

Certifications

- Google AI Essentials – Coursera
- Postman API Fundamentals – NITK, Surathkal

Achievements

- Participated in **L'Oréal Sustainability Challenge 2025**, applying technical knowledge to real-world business problems and improving problem-solving skills.
- Participated in **TVS Credit E.P.I.C 7.0 – IT Challenge**, solving programming and case study problems to design innovative business solutions.
